The space

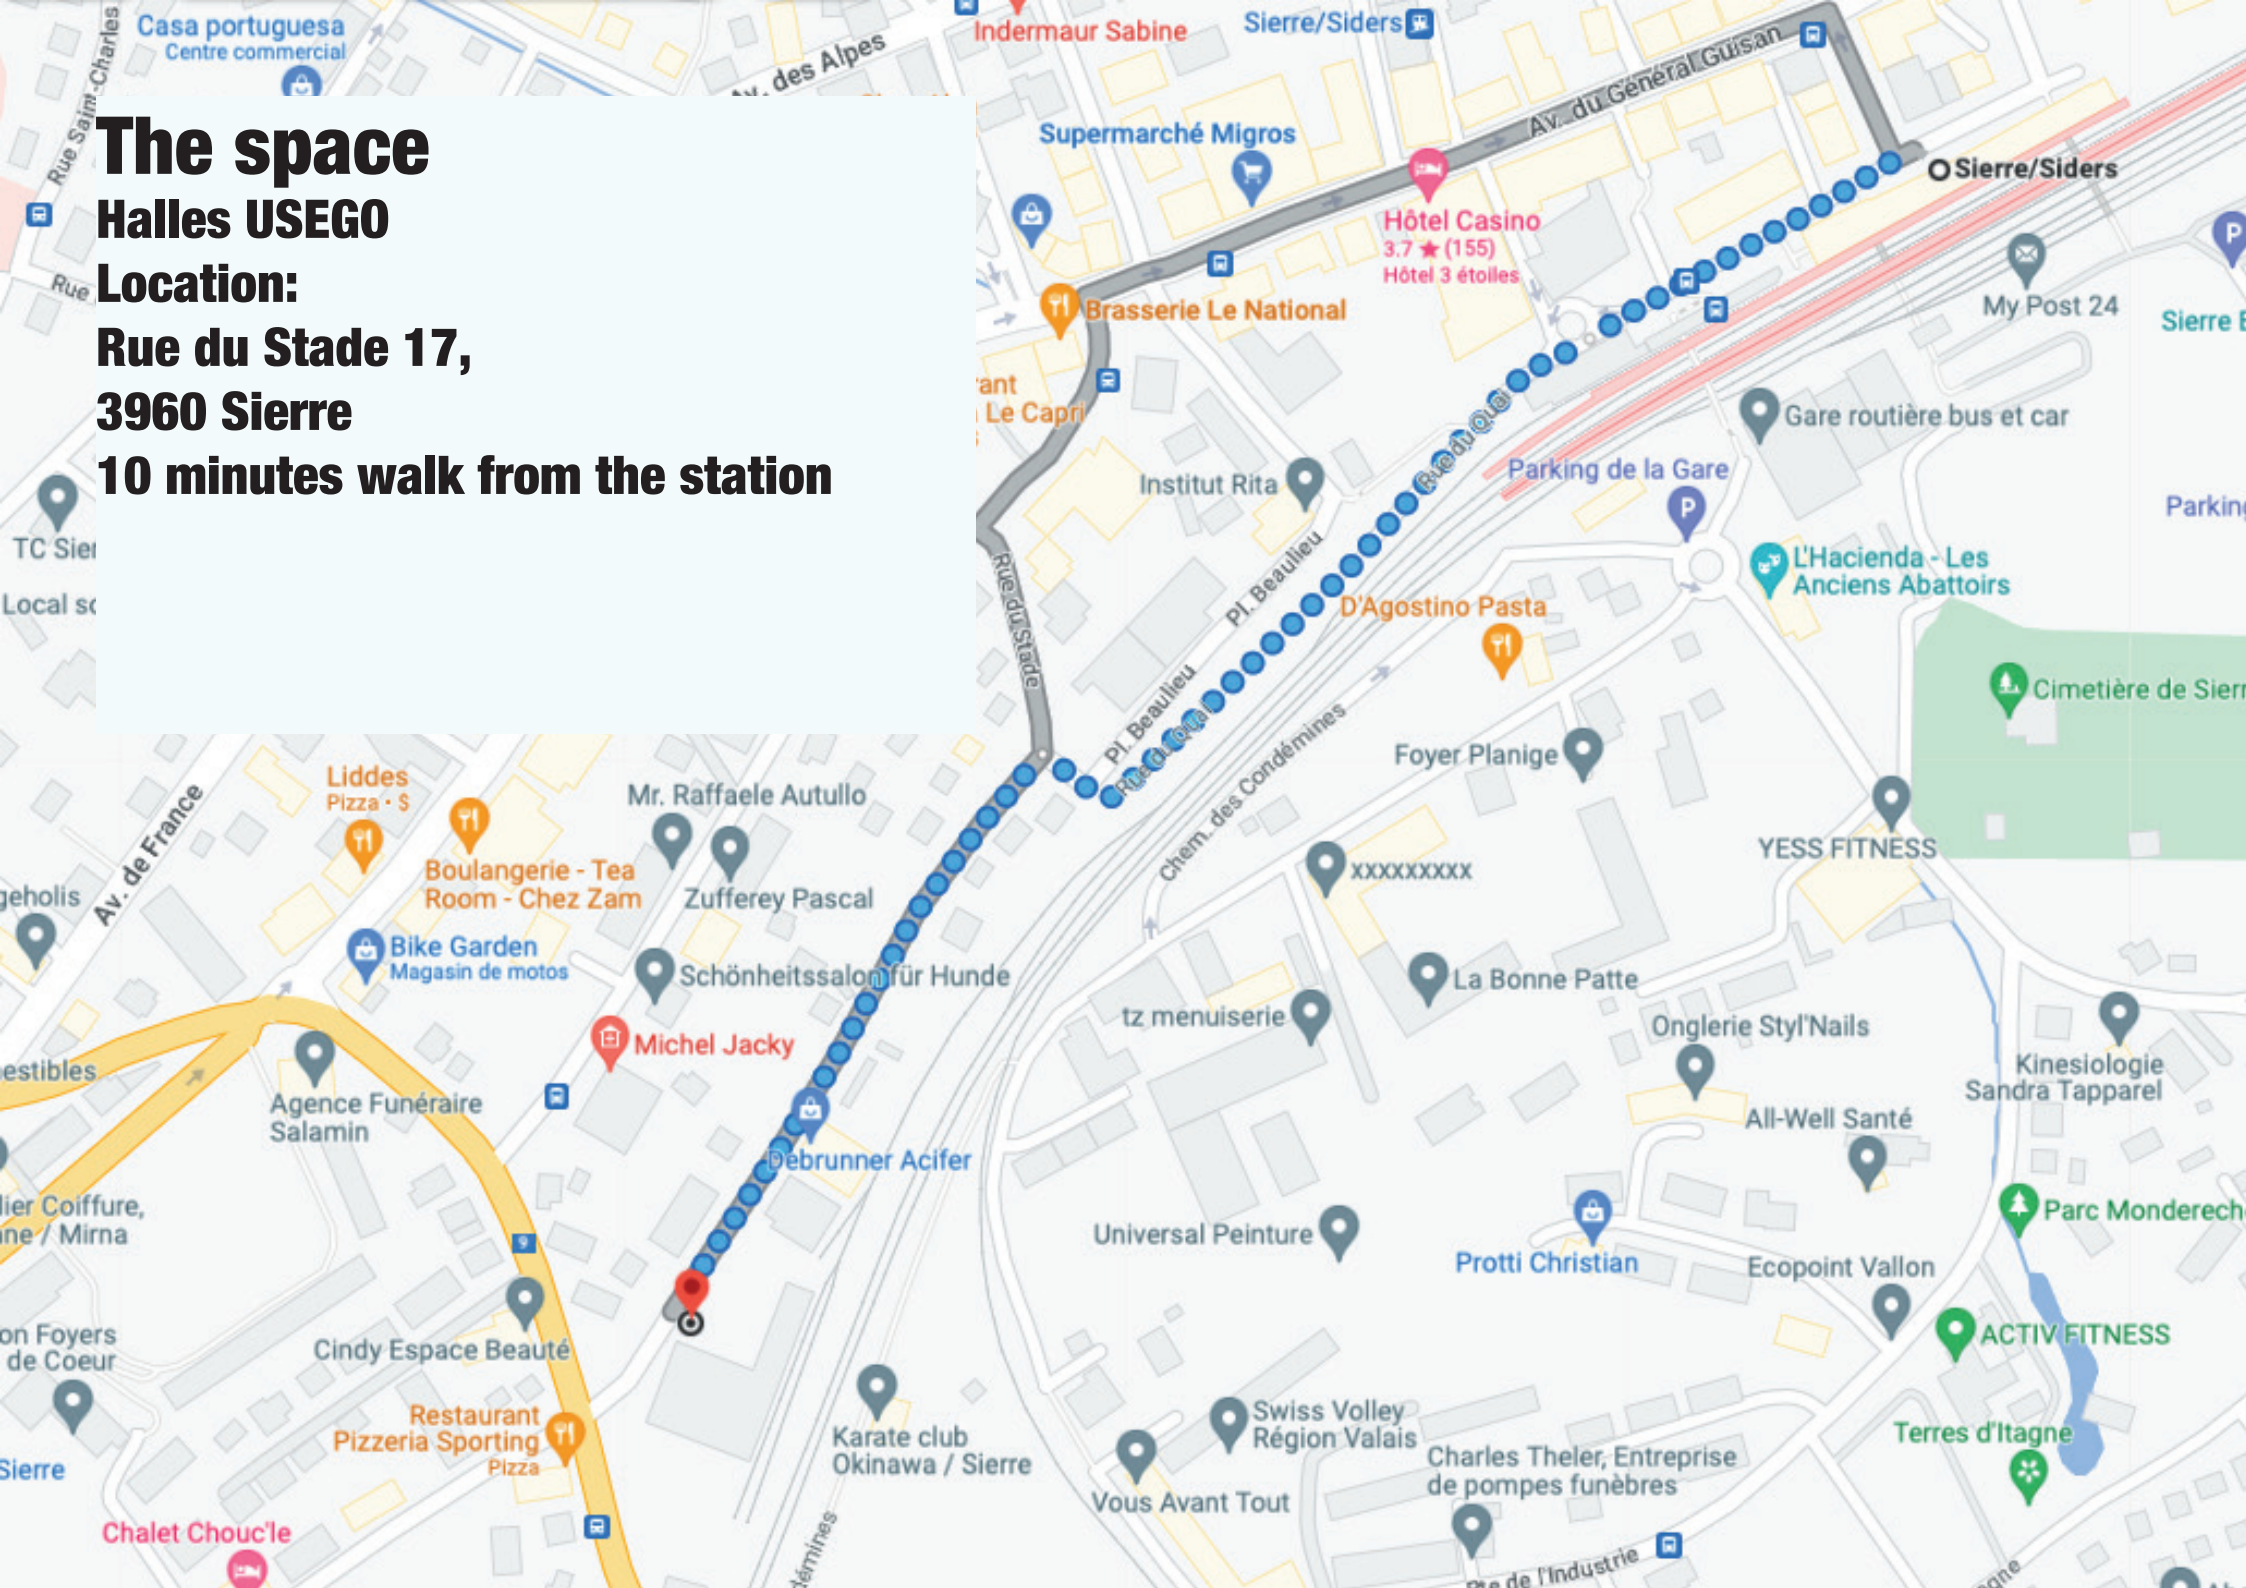

Halles USEGO

ACT 2011

- example of performances

Each space has specificities...

- Around the building

Industrial context: concrete, field and abandoned railway lines

Wider context, Sierre is surrounded by mountains

- In the building (-1, 0 and +1)

-1 : Intimate spaces, you can use as a black box or for a one to one performance

0: Main space: very interesting acousting properties (echo), very big space etc, possibility to use the columns, nice natural light

Black box: good for projections, or if you want to use specific light

+1: Main space: Less echo than in ground level, natural light

Black box: good for projections, or if you want to use specific light

NB: Durational performances are welcome and could happen inside or outside the building.

What we provide...

- Basic technical equipment

- Sound amplification**
- Microphones**
- Video projector**
- electric extension cords etc.**

- Technical support

- During the preparation day, a technician will help you with technical installation.**

- For specific technical equipment or support
